Safeguarding Context

THIS SAFEGUARDING POLICY IS DESIGNED TO MINIMISE THE RISKS TO THE YOUNG PEOPLE TAKING PART AND TO MAXIMISE THEIR ENJOYMENT AND WELLBEING.

Legislation and Policies

The welfare of all attendees is paramount. Safeguarding and Child Protection protocols pertaining to the Europe Triathlon Cup will be in the context of Irish legislation and adhere to the [Triathlon Ireland Safeguarding policies](#) which are in line with Sport Ireland and Sport Northern. It is recognised that all participating federations will have policies in place to cover safeguarding and duty of care requirements for travelling to events. However, where these differ from the event and Triathlon Ireland Safeguarding policy protocols and Irish legislation, Europe Triathlon Cup event protocols outlined here will take precedence.

Purpose of the Safeguarding policy

The purpose of the Safeguarding policy is to promote and ensure the well-being of those children and young people taking part in the Europe Triathlon Cup. Whilst most children and young people thoroughly enjoy their sport and have a great experience when travelling and taking part in events, some experience disruption, risk, abuse, harm or injury and bring with them the impact of concerns or worries that have occurred at home, school or in their wider community.

This policy and associated plan will ensure that all those responsible for the welfare of children

and young people:

- Understand their safeguarding role and responsibilities.
- Are suitably recruited, selected, trained and supported to fulfil these.
- Understand the procedures for responding to concerns about children's welfare.
- Are able to act on these appropriately and effectively.

All staff and volunteers involved in the 2024 Europe Triathlon Cup are required to read this Safeguarding policy carefully and to attend relevant safeguarding training to fulfil their respective responsibilities to ensure that all the procedures are followed in a consistent and coordinated manner.

A synopsis of the Safeguarding policy with key information will be issued to all athletes, coaches, athlete support personnel, photographers, external contractors.

A full copy of the Safeguarding policy will be distributed to staff, volunteers, local organising committee, Europe Triathlon and will be available with the event information.

Principles

This Safeguarding policy is underpinned by the following principles.

- The welfare of the young athletes and all young people is paramount.
All staff, volunteers and carers directly responsible for children and young people should ensure they are promoting the welfare of the children they are responsible for. In a sporting context this will include ensuring athletes are fit to race. For example, if an athlete has been advised by a medical practitioner to rest an injury they should not be competing or training until they have been given the all clear, encouraging/reminding athletes to stay hydrated and consume enough calories to allow them to perform.
- All competitors and young volunteers, whatever their age, gender, (including gender reassignment, culture, language, racial origin, religious beliefs, sexual identity or disability, have equal rights to safety and protection from harm.
- All safeguarding concerns or allegations of a child protection nature arising from the event, within the sport or outside of the sport, will be taken seriously and responded to swiftly and appropriately.

Accommodation

Athletes will stay in accommodation with their team and coaches/carers. Coaches and chaperones travelling with young athletes have a duty of care for their athletes and are responsible for their athletes welfare while they are in the accommodation and at all times on the trip.

Triathlon Ireland guidelines outline the following in line with best practice in relation to travelling with young athletes and applies where the coach/chaperone/carer is not a parent/legal carer.

- Coaches and chaperones should not share a room with a junior athlete.

Travelling to Event

If parents/carers are not travelling with the athlete then it is recommended that two coaches/chaperones/ASP travel with athletes under 18 to ensure best practice in terms of ratios and ensuring no athlete is alone with a coach/chaperone/ASP. Coaches/chaperones/ASP should meet their own federations safeguarding requirements in terms of criminal checks and safeguarding training.

Accreditation

There will be an accreditation system in place at the event.

Only people who have been provided with the appropriate accreditation will be allowed access into specific areas including the athletes lounge.

Coaches/chaperones will not be able to gain access to the changing area. There will be an athletes lounge area allocated where coaches and athletes can mix. Accreditation should not be shared or given to another person.

Medical provision will be provided on site. The Triathlon Ireland Safeguarding team and staff will liaise with the event medical coordinator to ensure a safe environment for any young people requiring medical attention at the Europe Triathlon Cup.

Managing illness or Accident

- If any person at the Europe Triathlon Cup displays symptoms of any contagious illness, they must seek immediate advice from the Medical team on site.
- If any junior athlete requires medical treatment the Safeguarding Lead Officer will be informed so the coach or chaperone can be called and an incident report can be made. Where provided the Safeguarding Lead Officer will hold medical information of the young people at the event.
- If a junior athlete needs to be transported to hospital the athlete's coach or chaperone must attend with the athlete or follow them to the hospital as soon as possible. If additional support is required by the team to chaperone other athletes Triathlon Ireland staff can support.
- The Safeguarding Lead Officer should be informed as soon as possible about any medical assistance sought or provided to young people.

Anti Doping

Sport Ireland will conduct testing at the event. Coaches should remain near the finish line to accompany the athlete during the test if required. If the athlete would prefer a different chaperone, Triathlon Ireland staff of both genders will be on hand to support and act in this role if required.

These staff members have completed Garda vetting criminal checks and safeguarding training. Additional anti doping information can be found in the athlete guide .

What to report

Category A

Concerns to be reported may include:

- General concerns about a child/children's welfare
- Any event or circumstance related to a child protection/ safeguarding incident including bullying, poor practice and discriminatory behaviour.
- Anti doping concerns.
- Suspicions or allegations of:
 - Misconduct/breach of code of conduct made against any member of staff, volunteer, athlete or athlete support personnel. This may include aggressive behaviour or language.

 - Misconduct/breach of code of conduct/abuse made against an athlete, young official or young volunteer.
 - Abuse within a child's family or team.
 - Abuse against an athlete, young official or young volunteer.

Types of Abuse

Physical abuse is deliberately physically hurting a child. It might take a variety of different forms, including hitting, biting, pinching, shaking, throwing, poisoning, burning or scalding, drowning or suffocating a child.

Neglect is the failure to provide for a child's basic needs, whether it be adequate food, clothing, hygiene, supervision or shelter that is likely to result in the serious impairment of a child's health or development. Children who are neglected often also suffer from other types of abuse.

Sexual abuse occurs when others use and exploit children sexually for their own gratification or gain or the gratification of others. Sexual abuse may involve physical contact, including assault by penetration (for example, rape, or oral sex) or non-penetrative acts such as masturbation, kissing,

rubbing and touching outside clothing. It may include non-contact activities, such as involving children in the production of sexual images, forcing children to look at sexual images or watch sexual activities, encouraging children to behave in sexually inappropriate ways or grooming a child in preparation for abuse (including via e-technology). Sexual abuse can be perpetrated by adult men or women or other children.

Emotional abuse is the persistent emotional maltreatment of a child. It is also sometimes called psychological abuse and it can have severe and persistent adverse effects on a child's emotional development. Emotional abuse may involve deliberately telling a child that they are worthless, or unloved and inadequate. It may include not giving a child opportunities to express their views, deliberately silencing them, or 'making fun' of what they say or how they communicate. Emotional abuse may involve bullying – including online bullying through social networks, online games or mobile phones – by a child's peers.

Exploitation is the intentional ill-treatment, manipulation or abuse of power and control over a child or young person; to take selfish or unfair advantage of a child or young person or situation, for personal gain. It may manifest itself in many forms such as child labour, slavery, servitude, engagement in criminal activity, begging, benefit or other financial fraud or child trafficking. It extends to the recruitment, transportation, transfer, harbouring or receipt of children for the purpose of exploitation. Exploitation can be sexual in nature.

Bullying is the repeated use of power, by one or more persons, intentionally to harm, hurt or adversely affect the rights or needs of another or others. Today the act of bullying includes cyber bullying. While often not as visible as other forms of bullying, cyber bullying is every bit as damaging to its victims and is extremely common amongst children today. Bullying can be:

- Physical - pushing, kicking, hitting, pinching, unwanted physical contact etc.
- Verbal - name-calling, sarcasm, spreading rumours, persistent teasing, racist / homophobic taunts, gestures
- Emotional - torment through ridicule, humiliation and the continual ignoring of individuals
- Sexual - unwanted physical contact or sexually abusive remarks
- Homophobic - focuses on a person's actual or alleged sexuality
- Racist - racial taunts, graffiti, gestures
- Cyberbullying - happens on social networks, games and mobile phones. Cyberbullying can include spreading rumours about someone, or posting nasty or embarrassing messages, images or videos.

Category B

All accidents and incidents, no matter how trivial they might appear, should be reported. For example:

- Any injury to any part of a person's body.
- Any case requiring medical or first aid treatment.
- Any event or circumstance, which is believed, could have resulted in bodily injury, illness, shock or other condition requiring immediate treatment.
- Any event or circumstance which resulted in, or in which it is believed could have resulted in, a person's exposure to a substance hazardous to health.
- Any event or circumstance, which resulted in, or in which it is believed could have resulted in, damage to the site, equipment, vehicle or personal property.

Sharing concerns or allegations with Team

Managers/Coaches/Parent/s/Carer/Guardians

There are circumstances in which a young person might be placed at even greater risk if concerns are shared, e.g. where a coach, parent, guardian or carer may be responsible for the abuse or not able to respond to the situation appropriately. It is best practice to seek parental consent to refer to statutory agencies however, if this would place a child at risk of harm advice will be sought from TUSLA - the child and family agency.

Safeguarding Panel

During the Event a Safeguarding Panel will be convened to make decisions on the initial responses to all reported cases in line with the Safeguarding policy.

The decisions will relate to:

- The immediate response at the event
- Decisions about what level each case will be dealt with (minor poor practice through to suspected abuse), and
- The route a case will take (no further action, referral in writing to employing/deploying organisation or NGB for disciplinary proceedings to be initiated and/or external referral to statutory agencies).
- Identify and act on any emerging themes such as bullying behaviour.

The Safeguarding panel will consist of 3 people. This will include the two Safeguarding Lead Officers and one other member of staff who has completed safeguarding protocols (Criminal

checks and Safeguarding training). The panel will have a terms of reference.

Where a safeguarding issue has been dealt with, the Safeguarding Panel will review and track actions (as required). A formal record of the Safeguarding Panel meetings will be kept for six months, after which time they will be archived appropriately.

- Marshalls should only leave their post to search if it is safe to do so and if they are instructed to do so.
- Junior volunteers or other young athletes should not be part of the search.
- If the young person isn't found in the immediate vicinity then police will be informed within 20 minutes to ensure cars leaving the area can be checked.
- Safeguarding Lead Officer to be informed immediately when the young person is found.
- If a volunteer, marshall or staff member finds themselves alone with a young person they should alert the Safeguarding Lead Officer and stay in an open area with the young person until assistance arrives from the safeguarding team.
- If the young person is injured or needs assistance when found, medical support should also be alerted immediately. If they need assistance before medical assistance can arrive then consent should be granted by the young person before assisting them in any way if they are conscious and in a position to do so.
